

# Undergraduate Summer Summer Scholarships

Our Summer Summer Scholarships are now open for application. The programme provides exciting opportunities for undergraduate students to work with ICR research teams for 6 – 8 weeks over the summer (with a stipend of £300 per week).

As part of the ICR commitment to promote diversity and inclusivity in its student cohorts, in the 2024 scheme **three studentships will be ringfenced for Black British and first-generation students.**

Research projects are available to undergraduate students with backgrounds in biology, biochemistry, bioinformatics, biomedical engineering, chemistry, computer science, mathematics, physics and statistics.

**Apply by: 16<sup>th</sup> February 2024** (please note that some research teams have an earlier deadline on February 9<sup>th</sup>)
