WELCOME

We are delighted to welcome you to the Jobs for Mathematicians event, which offers you the opportunity to:

- Find out about careers using maths
- Meet employers who are recruiting for roles using maths
- Compare different organisations and sectors (including academia)
- Ask questions to help your decision making

You are always welcome at the Careers Service if you need any help considering career decisions or applications. We support students and alumni for life – come in and explore what we can offer at 56 Banbury Road. Our Resource Centre and website www.careers.ox.ac.uk are both packed full of careers information for you to browse.

PANEL TALKS AT THE FAIR

- **Careers in Maths - for undergraduates**, 15.30 – 16.15
  Six speakers representing six very different employment sectors (IT, Engineering and Defence, Finance, Statistical research and modelling, Consultancy and Education) will give a five minute overview on the life of a mathematician in their world, before answering any questions.

- **Careers in Maths - for postgraduates**, 17.00 – 17.45
  Six speakers representing six very different employment sectors (IT, Engineering and Defence, Finance, Statistical research and modelling, Consultancy and Education) will give a five minute overview on the life of a mathematician in their world, before answering any questions.

- **Careers in Research**, 18:15 – 19.00
  Speakers who have pursued a research career in business, the public service and academia will share their insights and tips, with a Q&A to close.

JOIN THE CONVERSATION AND SHARE YOUR THOUGHTS:

- www.facebook.com/OxfordCareers
- linkd.in/OxfordCareers
- #OxJobsForMaths

- Law
- Charities
- Finance
- Education
- Publishing
- Film & Media
- Museums & Galleries
- Hospitality & Tourism
- International Development
- IT & Telecommunications
- Natural Resources & Environment

The Internship Programme offers global summer internship experiences to current students at Oxford (including finalists and finishing postgraduates). Students spend their summer working in a sponsoring organisation from a wide range of sectors, located in Africa, North America, South America, Europe (including the UK), India, the Middle East and SE Asia.

Summer 2014 internships will be listed on The Careers Service website from January 2014.

Application deadline for international placements: 11 February 2014

Application deadline for UK placements: 4 March 2014

www.careers.ox.ac.uk/internships
ATASS Sports

Oxygen House, Grenadier Road, Exeter, EX1 3LH

ATASS Sports is a statistical research consultancy providing high quality modelling and analysis for the sports industry. We combine expertise in statistical analysis and research with in-depth sports knowledge, and dominate the sports modelling industry in the UK and abroad.

We are seeking highly motivated individuals to join our research and analytical teams. Successful applicants will work within new and established multi-skilled teams to develop novel statistical models, incorporating real-time information, in order to enhance understanding of the complex relationships inherent in competitive sports. We recruit at undergraduate and postgraduate level, as well as running summer internships for undergraduates.

Capital One

Trent House, Station Street, Nottingham, NG2 3HX

Capital One is a UK top 10 credit card provider with over 3 million UK customers and 40 million worldwide. We were voted the best large employer not only in the UK but in all of Europe by the Great Places to Work Institute in 2013. Our vision is simple; we want to make our customers’ lives better. A bold statement, but that’s the kind of company we are.

The goal of our Business Analysts is to solve complex business problems and develop strategies that drive profitability and growth. You’re likely to be involved in a whole range of activities – from assessing product profitability to TV and internet marketing campaigns. You might perform market analysis or use advanced statistical techniques to understand consumers more and better meet their needs.

At Capital One we provide a rigorous Analyst Development Programme over the first 2 years designed to develop world class analytical skills and business intuition. Our managers also attend 3 weeks of Advanced Credit training in our US offices. Capital One University also provides a wealth of courses tailored to your needs as well as educational support for MBAs or other further studies.

Employment is offered for those completing undergraduate and graduate degrees. Work visa sponsorship possible for exceptional international applicants.

**TOTAL NUMBER OF VACANCIES IN 2014:** 8-10

**SALARY RANGE IN 2014:** £32,000 starting salary and benefits, plus £5,000 sign on bonus and competitive annual bonus

Ensoft Ltd

Ensoft House, 4-6 Arden Grove, Harpenden, Hertfordshire, AL5 4SJ

Ensoft is one of the UK’s most successful small software companies. We write software that connects the world. Much of the Internet depends on our technology every day. The wide variety of work we undertake is based on our unique long-term relationship with Cisco Systems. Our growth to a team of about 50 engineers is based exclusively on recruiting Oxbridge graduates.

The complex problems we undertake each day require a similar combination of logic and creativity that many Oxford mathematicians develop during their time at University.

The work environment is excellent. We offer flexible working hours and a very active social life. Our success is based on the high calibre of our graduates and the dedication of our team to training and personal development throughout the company.

DO YOU OFFER EMPLOYMENT FOR THOSE COMPLETING BA/MMATH COURSES, OR EQUIVALENT, OR THOSE WITH POSTGRADUATE ACADEMIC QUALIFICATIONS? Yes

DO YOU OFFER INTERNSHIPS FOR CURRENT UNDERGRADUATE OR POST-GRADUATE STUDENTS? Yes. Any student with a talent and interest for writing software may apply.

TOTAL NUMBER OF VACANCIES FOR 2014: About 3–5 graduate software engineers, but we will always consider exceptional candidates.

SALARY RANGE IN 2014: £33,000 graduate salary rising rapidly in line with performance, plus discretionary bonus that can grow to be a substantial part of the remuneration package, and other benefits. We pro-rate a £20,000 per annum salary for internships.

METHOD OF APPLICATION: Send a CV to recruitment@ensoft.co.uk by 10am on Friday 29th November 2013.

GO FURTHER, FASTER

Careers at the top of the business world are often defined by where they start. Begin yours at EY and you’ll gain the skills, contacts and experiences that will stay with you for the whole of your career.

Opportunities in Advisory, Assurance, Corporate Finance and Tax.

Find out more and apply at ey.com/uk/careers
EY

1 More London Place, London, SE1 2AF

EY is a leading professional services organisation with over 152,000 people in 140 countries. We work globally through our four service lines; Advisory, Assurance, Corporate Finance and Tax, and our clients include some of the world’s most successful organisations.

Our people’s ingenuity and creativity help clients improve the way they work, make vital business decisions and explore opportunities. Our continued growth depends on driven, ambitious and diverse people. You’ll work alongside experts, receive world-class training and development, and study for professional qualifications.

Where you go with your career is up to you – we’ll make sure you get the training and exposure you need to take it from strength to strength. Mathematics students looking to specifically use their subject in their future career can use their modelling expertise in Operational Research, or become a Qualified Actuary in our Actuarial division. We welcome applications from undergraduates, post-graduates and international students.

DO YOU OFFER EMPLOYMENT FOR THOSE COMPLETING BA/MMATH COURSES, OR EQUIVALENT)? Yes

DO YOU OFFER EMPLOYMENT FOR STUDENTS WITH POSTGRADUATE ACADEMIC QUALIFICATIONS? Yes

DO YOU OFFER INTERNSHIPS FOR CURRENT UNDERGRADUATE STUDENTS? Yes – for penultimate year students

DO YOU OFFER INTERNSHIPS FOR CURRENT POSTGRADUATE STUDENTS? No

TOTAL NUMBER OF VACANCIES FOR 2014: 750

SALARY RANGE IN 2014: Competitive

METHOD OF APPLICATION: Apply using our online application form at www.ey.com/uk/careers

Pascal found order in a game of dice.

Can you find the patterns in chance events?

If you can bring science to bear on the toughest challenges, apply here today for our Quantitative Analyst roles.

www.gresearch.co.uk/predict-the-future
G–Research

4th Floor Whittington House, 19–30 Alfred Place, London, WC1E 7EA

At G–Research we research algorithmic trading strategies to predict price movements in financial markets across multiple asset classes. We also develop the research and execution platform to trade these strategies globally. We are looking for exceptional individuals to join our Quantitative Research Team. The role involves analysts seeking patterns in large, dirty and noisy data sets, using techniques such as time series analysis, probability theory and regression analysis.

A prerequisite is an extremely strong background in mathematics. A post-graduate degree in a highly quantitative subject (mathematics, statistics, computer science, physics or engineering) is desirable. Previous financial experience is not required, although interest in finance and the motivation to rapidly learn more is a prerequisite for working here. What is essential is practical, hands-on ability to apply mathematical concepts to real world financial problems, to implement theoretical insights as working code, and the ability to work independently in a research environment.

DO YOU OFFER EMPLOYMENT FOR THOSE COMPLETING BA/MMATH COURSES, OR EQUIVALENT? Yes

DO YOU OFFER EMPLOYMENT FOR STUDENTS WITH POSTGRADUATE ACADEMIC QUALIFICATIONS? Yes

DO YOU OFFER INTERNSHIPS FOR CURRENT UNDERGRADUATE STUDENTS? Yes: in Software Development for undergrad penultimate year students.

DO YOU OFFER INTERNSHIPS FOR CURRENT POSTGRADUATE STUDENTS? Yes: in Quantitative Analysis for final year postgrads

Trading’s just part of the equation

Jane Street is a technology-based quantitative trading firm. We accept undergraduate and postgraduate students from all years of study; no finance experience required.

janestreet.com
Jane Street

10 Chiswell Street, London, EC1Y 4UQ

Jane Street is a proprietary quantitative trading firm, focusing primarily on trading equities and equity derivatives. We use innovative technology, a scientific approach, and a deep understanding of markets to stay successful in our highly competitive field. Technology is at the core of how we approach trading, and we consider ourselves as much a technology company as a trading firm.

Our entrepreneurial culture is driven by our talented team of traders and programmers. At Jane Street, we don’t come to work wanting to leave. We come to work excited to test new theories, have thought-provoking discussions, and maybe sneak in a game of ping-pong or two. Keeping our culture casual and our employees happy is of paramount importance to us.

Full time and internship opportunities are available in Trading, Software Development, Information Technology & Networking and Research. We welcome applications from undergraduates, postgraduates and international students.

DO YOU OFFER EMPLOYMENT FOR THOSE COMPLETING BA/MMATH COURSES, OR EQUIVALENT? Yes

DO YOU OFFER EMPLOYMENT FOR STUDENTS WITH POSTGRADUATE ACADEMIC QUALIFICATIONS? Yes

Metaswitch Networks

100 Church Street, Enfield, Middlesex, EN2 6BQ

Metaswitch is powering the transition of communication networks into a software-centric future. What does that mean to you? Together we can work at the centre of a major shift in the way the world communicates and consumes media. We’re hiring the brightest minds, the most creative thinkers who are open to change, to help shape this dramatic new landscape. We provide software that powers some of the largest players in the technology and telecoms industry. From day one, you will be assigned real tasks working on the design and development of complex software or hardware. We will provide you with the support and guidance to take on challenges that will allow you to increase your knowledge and continue to progress.

DO YOU OFFER EMPLOYMENT FOR THOSE COMPLETING BA/MMATH COURSES, OR EQUIVALENT? Yes

DO YOU OFFER EMPLOYMENT FOR STUDENTS WITH POSTGRADUATE ACADEMIC QUALIFICATIONS? Yes

DO YOU OFFER INTERNSHIPS FOR CURRENT UNDERGRADUATE STUDENTS? Yes. We welcome applications from first years through to those in their final year. If you are outstanding we may sponsor your next year at university.

DO YOU OFFER INTERNSHIPS FOR CURRENT POSTGRADUATE STUDENTS? Yes. We will consider internship placements for all students.

TOTAL NUMBER OF VACANCIES FOR 2014: 40 Graduate, 40 Internships

Morgan Stanley

20 Bank Street, Canary Wharf, London, E14 4AD

Morgan Stanley is more than a leading financial services firm. With 1,200 offices spanning 43 countries and talented, passionate people bringing excellence and integrity to everything we do, the firm is truly global. Throughout the firm’s history, diverse and talented individuals have worked together to develop our new ideas and groundbreaking financial products.

We all know and recognise the value add of work-experience and we, therefore, offer internships that give promising penultimate-year students the chance to experience one of our nine key business areas in an enjoyable and intellectually challenging way. In addition to our 10-week summer programmes, we also run industrial placements and off-cycle internships, plus give you the opportunity to join us for a look behind the scenes at one of our insight events. While allowing you to experience Morgan Stanley and our culture first hand, internships and industrial placements also serve as the #1 pipeline for our full time programmes.

DO YOU OFFER EMPLOYMENT FOR THOSE COMPLETING BA/MMATH COURSES, OR EQUIVALENT? Yes

DO YOU OFFER EMPLOYMENT FOR STUDENTS WITH POSTGRADUATE ACADEMIC QUALIFICATIONS? Yes

DO YOU OFFER INTERNSHIPS FOR CURRENT UNDERGRADUATE STUDENTS? Yes. Preference will be given to penultimate year students for our summer internship programme

DO YOU OFFER INTERNSHIPS FOR CURRENT POSTGRADUATE STUDENTS? Yes. Postgraduate students on a quantitative subject can apply for our Strats & Modeling off cycle internships

London Bridge

Your career is just that; yours. You choose it. You live it. You make it happen. To get the best from it, you need the best opportunities. That’s why opportunities are at the heart of a career with us. And we’re proud, based on the opportunity we offer, that students have voted us the number one Graduate Employer in The Times Top 100 Graduate Employers survey for the last ten years.

Our offer to you...

- To be part of the world’s leading professional services network and enjoy the benefits that come with that.
- Work directly with big name clients where you’ll get to grips with the value they’re looking for by getting into the detail.
- Provide an environment where you’ll be able to explore new opportunities, to help you grow and find your niche.
- Give you access to the best learning and development around. Every graduate enjoys a structured career programme, and many join career paths that involve study towards a professional qualification.

Take the opportunity of a lifetime, and join an employer focussed on helping you reach your full potential.
