

A portrait of Jerry Bona, a man with glasses, wearing a suit and tie, standing in front of a bookshelf. The text is overlaid on the image.

# The First Brooke Benjamin Lecture on Fluid Dynamics

Thursday 17th May, 2007 at 5pm

Lecture Theatre 1  
Mathematical  
Institute  
University of Oxford

**Jerry Bona**

University of Illinois, Chicago

## Water Wave Theory and some applications

The lecture will discuss both recent theoretical results in surface water wave theory and some of its recent applications to problems of practical import, including the discussion of tsunami propagation, rogue waves and nearshore zone processes.

All are warmly invited to attend the lecture and reception that follows.
