Statistics Department – Part C courses

Part C courses in 2022-23 are expected to be those listed below.

Compared to 2021-22 we expect:
- Algorithmic Foundations of Learning will move back to MT
- Graphical Models will not run in 2022-23
- Bayes Methods will return and run in HT

Michaelmas Term
- Stochastic Models in Mathematical Genetics
- Probability and Statistics for Network Analysis
- Probability on Graphs and Lattices
- Algorithmic Foundations of Learning

Hilary Term
- Advanced Topics in Statistical Machine Learning
- Advanced Simulation Methods
- Bayes Methods
- Topics in Computational Biology

MATHS students: can take up to 2 statistics units.

MATHS & STATS students:
- a statistics dissertation (worth 2 units) is compulsory.
- need to take at least 2 other statistics units (so that at least 4 of their units are statistics units). *Probabilistic Combinatorics* counts as a statistics unit for Maths & Stats students.
