

Oxford Mathematics Public Lectures  
Roger Penrose and Jon Chapman

Mathematical  
Institute

14.10.15

M.C. Escher  
*Artist,  
Mathematician,  
Man*

The symbiosis between mathematics and art is personified by the relationship between Roger Penrose and the great Dutch graphic artist M.C. Escher. In this lecture Roger will give a personal perspective on Escher's work and his own relationship with the artist while Jon Chapman will demonstrate the mathematical imagination inherent in the work.

The lecture will be preceded by a showing of the BBC film 'Secret Knowledge: The Art of The Impossible: M.C. Escher and Me' presented by Sir Roger Penrose. Private Escher prints and artefacts will be on display outside the lecture theatre.

**5pm – Lecture Theatre 1**  
Mathematical Institute, Andrew Wiles Building  
Radcliffe Observatory Quarter
