

Supporting Quantum
Inclusion and Diversity
Open to all students from
diverse backgrounds

Travel Bursaries available
for eligible students.

Join us in Bristol on Wednesday 7 December 2022 to explore how you can pursue a PhD in Quantum Engineering.

This afternoon event is aimed at encouraging students from diverse backgrounds to consider graduate studies in quantum technology at the PhD level.

Participants are encouraged, but not required, to attend the Centre for Doctoral Training in Quantum Engineering Open Day in Bristol on 8 December 2022.

The event features talks from quantum scientists and engineers, working both in universities and industry, as well as lab tours of the facilities at Bristol. You will also be able to network with current students and ask about their experiences.

To register your interest please visit:
