

Now recruiting for
September 2023 entry
Come to our Open Day
on 8 December 2022

EPSRC Quantum Engineering Centre for Doctoral Training

Training the next generation of scientists and engineers to lead the quantum technologies industry

We are now recruiting for entry in September 2023 to our PhD programme. We welcome candidates with backgrounds in mathematics, engineering, computer science and the physical sciences. We encourage applications from all members of our community who will be considered on an equal basis in line with the University's Equality and Diversity Policy. Applicants should have an upper-second class degree or higher in a relevant subject (or equivalent qualification). Fully-funded studentships available.

The deadline for submitting your application is 21 February 2023.
